

REQUEST FOR PROPOSALS

Bryan County EMS, Durant, Oklahoma will be accepting bids for the remounting of an ambulance module to a new chassis. The old chassis and module and the new chassis will be delivered to the remounting facility.

The purpose of this document is to provide minimum specifications for the remounting of one (1) AEV ambulance module onto a 2011 or later GM or Ford Cab and Chassis that meets the needs and desires of this Agency. Bids will be for a Type 1 Truck style chassis. Bids should be for a Ford 450 or 550 and a GM 4500 or 5500 chassis. This document also establishes essential criteria for the design, performance, equipment and appearance of the vehicle. The object is to provide a vehicle that is in accordance with nationally recognized guidelines (Federal Ambulance Specification KKK-A-1822E).

1. All Patient Compartment Lighting be switched to LED
2. LED Scene and load lights
3. Change clock to LED with count down timer.
4. All Emergency lighting changed to Dual LED lights
5. Install Rumbler siren
6. Install fold out step under patient compartment curbside door.
7. All door openers, latches and internal components to open doors will be replaced on patient compartment box.
8. Heater and A/C on bench seat with thermostat that can run when shore lined.
